

JUSTIN SAMUEL S

Full Stack Developer | MERN Stack Developer

Madurai, Tamil Nadu, India | +91 8825726910 | justinsamuel295@gmail.com | GitHub / LinkedIn

PROFESSIONAL SUMMARY

Full Stack Developer with 3.5+ years of experience developing scalable web applications using **React.js, Node.js, Express.js, MongoDB, JavaScript, TypeScript, and REST APIs**. Experienced in building CRM, HRMS, customer support, food ordering, taxi booking, and rental marketplace applications with real-time features, payment gateway integrations, third-party APIs, and test automation using Playwright.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, GraphQL

Database: MongoDB, MySQL

Authentication & Integration: JWT Authentication, Firebase, Third-Party API Integration

Testing & Automation: Playwright, E2E Testing, API Testing

Real-Time Development: WebSockets, Real-Time Applications

Payment Gateways: Stripe, PayPal, Razorpay, FlowPay, Rapyd Pay, Flutterwave, Airwallex

Tools: Git, GitHub

AI-Assisted Development: Claude, GitHub Copilot, MCP, Playwright MCP, Figma MCP, GitHub MCP

PROFESSIONAL EXPERIENCE

WARELY TECHNOLOGY

Full Stack Developer | Sep 2025 – Present

Digital Ordering

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Rapyd Pay

- Developed restaurant digital ordering workflows for dine-in and takeaway orders using table and takeaway QR codes.
- Implemented outlet ordering, pay-at-counter flows, payment processing, and responsive customer-facing interfaces.

Food Delivery (Pick and Delivery)

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Airwallex

- Developed end-to-end online ordering for pickup and doorstep delivery.
- Integrated delivery services, delivery fee calculation, minimum-order validation, order tracking, real-time status updates, and payment processing.

Support Chat

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, WebSockets, AI Chatbot

- Built real-time customer support and lead management workflows for team communication and customer interactions.
- Implemented lead-stage workflows, performance monitoring, and AI chatbot integration for customer queries.

Millennia Miles

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Real-Time

- Developed taxi booking workflows with vehicle selection based on passenger count and automatic available-driver assignment.
- Implemented admin booking and assignment, distance-based fare calculation, trip management, and driver availability scheduling.

WIZINOA

MERN Stack Developer | Jan 2025 – Jul 2025

LokalNav

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Maps

- Developed local vendor and service discovery features with location-based search, interactive maps, promotions, offers, and discount codes.

CRM

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, RBAC

- Built CRM modules for leads, clients, follow-ups, contacts, tasks, internal communication, role-based access, and automated reminders.

HRMS

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs

- Developed employee records, attendance, payroll, performance, leave, salary generation, onboarding, and offboarding workflows.

PROJECT EXPERIENCE

RADICALSTART INFOLAB

Full Stack Developer | Jan 2023 – Nov 2024

RentALL – Airbnb Clone

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Payment Integration

- Developed property listing, search, booking, authentication, and payment workflows for a rental marketplace.

Wooberly – Ola/Uber Clone

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Real-Time

- Implemented user and driver workflows, live ride tracking, fare estimation, trip history, and secure payment processing.

WooberlyEats – UberEats Clone

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Real-Time, Payment

- Developed customer, restaurant, and delivery workflows covering food browsing, ordering, real-time delivery tracking, payments, and order management.

ADDITIONAL TECHNICAL EXPERIENCE

- Designed and consumed REST APIs, implemented authentication and authorization using JWT, and integrated third-party services.
- Worked with MongoDB and MySQL for application data modeling, querying, and business workflows.
- Built responsive React interfaces and reusable components with Tailwind CSS; worked with Next.js for modern web application development.
- Implemented real-time application features using WebSockets and event-driven communication patterns.
- Created automated end-to-end and API tests using Playwright.

AI-ASSISTED DEVELOPMENT

Hands-on experience using **GitHub Copilot** and **Claude** with MCP-based workflows for code generation, debugging, test automation, UI implementation from Figma designs, and GitHub workflow automation.

EDUCATION

B.Sc. – The American College, Madurai | 2020 | CGPA: 6.6

INTERESTS

AI/LLM applications, developer productivity, test automation, SaaS platforms, CRM and business automation, cloud technologies, and modern web application architecture.
